

SUN2000 Series Solar Inverter for Grid-Connection

Three-Phase, Transformerless,
8kW/10kW/12kW/15kW/17kW/20kW/23kW

Introduction

Huawei Technologies, adhering to the concept of "high quality, perfect service, and quick response to customer's demand", constantly brings high quality products and services to the world. As the world's top 500 enterprises, we are actively promoting the use of clean solar energy by providing a full range of solar inverters and intelligent monitoring solutions.

In more than 20 years, Huawei has provided communication equipments and stable power supplies for one-third of global population's communication service, and has accumulated rich experience of R & D and application in the ICT and network energy field. Based on leading technology platforms of power supplies and digital control, we release the SUN2000 series three-phase inverter with telecom class reliability and top efficiency all over the world.

This series of products meets Germany BDEW MV directive and VDE AR N 4105 LV directive, CE Low Voltage Directive and the Directive for Electromagnetic Compatibility, Italy Enel-GUIDA and CEI 0-21 certification, as well as China Golden Sun certification. It has good environment adaptability and can be used for various scenarios covering from 8kW to Megawatts, either rooftop or ground mounted power plants.
